

AUTO 2.0 INTELLIGENT SPEED CONTROL TECHNOLOGY

3-Step Walk to Start-up

Walk three steps successively from the back of the running belt to the front. The screen changes synchronously according to the number of steps.

Adaptive Speed Control Technology

Utilizing human body infrared induction, Home Walking's running surface is divided into 3 sections: speed up, constant speed, and slow down. The reference line on the right side rail is used to mark the user's movement trend. Your speed changes according to where you run.

INTEGRALLY-FORMED SMART HANDRAIL

Exquisite Workmanship

Made of aluminium alloy by specially jointing process, the handrail is no screws fixed and the connection gap is merely 0.1MM, safer and more reliable

Double Safety Guaranteed

The handrail's mechanical buttons offer an additional option to control this machine, and with the easily accessible emergency stop switch, your safety is considerably protected while running.

Self Adaptive Speed Adjustment

Choose your needed exercising mode with the easily adjusted hydraulic armrest. The max speed is 8km/h when handle is lifted and is automatically adjusted to 6km/h when handle folded, which could meet your different needs.

HOME WALKING FLAT TREADMILL

Home Walking's innovative infrared foot control technology, seamless-joining process, invisible bolt assembly and slip design is taking the home workout to a whole new level. Up to 90% of this machine is made of aluminum alloy, which maximizes the machine's structural integrity and durability while making the treadmill lightweight. With easily adjusted hydraulic armrest, the max speed is 8km/h when handle is lifted and 6km/h when handle is folded. Home Walking offers manual mode and auto mode for users to select and switch over arbitrarily. The minimum height is 9cm and maximum user weight is 120kg. Built-in Bluetooth stereo speaker is an additional feature for every user to enjoy the music during the workout.

SPECIFICATIONS

Item	Specification
Motor Drive	450W DC motor
Speed Range	1-6 km/h 1-8 km/h (with handrail)
Running Surface	120 x 46 cm
Control Mode	Auto Mode Manual Mode(with handrail) Remote Control(optional)
Net Weight	30 kgs 35 kgs (with handrail)
Maximum User Weight	120 kgs
Product Dimensions	143.6 X 64.1 X 9.3 cm 147.5 x 73.5 x 9.3 cm (with handrail)
Shipping Dimensions	148 x 68 x 12 cm 151.5 X 75.6 X 12 cm (with handrail)
Shipping Weight	35kgs 40kgs (with handrail)
Console Display	LED Dot Matrix Display
Readouts	Speed, Steps, Time, Distance
Entertainment	Built-In Bluetooth Speakers
Handrail Function	Speed decrease, Switch, Start, Emergency Stop, Stop, Pause, Speed increase
Power	100-240V ~ 50 / 60Hz
Loading Capacity	20GP:239PCS/40GP:504PCS/40HC:576PCS 20GP:212PCS/40GP:437PCS/40HC:503PCS (with handrail)

HIGHLIGHTS

Sturdy and Durable Construction

Home Walking's aluminum alloy frame, high density elastic running board, combine with an integral forming process of side rails and supporting frame, which all together make the machine as strong as it is smart. The sturdy base can withstand up to 120kg user.

Ultra Space Saving

The handrail can be firmly fixed onto the frame to achieve an easy transportation with our delicately designed bidirectional folding locking mechanism. With a minimum height of only 9cm, the folding treadmill be stored under the sofa, the bed or on the wall. Small footprint, easy storage, and portable type.

Hi-Fi Bluetooth Speaker

Sync your smartphone with the integrated Bluetooth and play your favorite workout music through the on board crystal clear stereo speakers.

Powerful Dynamic System

Durably built to withstand rigorous use by walkers and runners, Home Walking's Two Stage Deceleration Technology and Tensioner Pulley Device enable the motor to run powerfully and efficiently in a limited space.
